Application

Your application for admission to TUM: Junge Akademie should consist of the following parts:
- a letter of motivation (one to two pages)
- a project idea regarding that year’s call (max. two pages)
- a curriculum vitae
- a transcript of records (official document/TUM grades)
- for unsolicited applications: a letter of recommendation from a professor

The next application deadline will be in February 2017.

The admission will take place after the selection days in April. Detailed information on the upcoming call as well as on all dates and deadlines relevant for the application can be found online at www.jungeakademie.tum.de/en/apply

We are looking forward to getting to know you personally. In case of any further questions please do not hesitate to contact us via jungeakademie@zv.tum.de

"Why do we invest this great amount of time and energy into our TUM: Junge Akademie? We do this as we know that our excellent graduates will have the responsibility and power to shape the future. We want to enable them to proactively steer disruptive and evolutionary processes, to understand, analyze and balance conflicts of interests, and to act as moderators and communicators."

Prof. Dr.-Ing. Gerhard Müller, Chair of Structural Mechanics, Senior Vice President of TUM, Director of TUM: Junge Akademie

"To me, TUM: Junge Akademie is a gate to a diverse community, rich with new perspectives. Working on challenging projects in an interdisciplinary ambience with the guidance of professional mentors, I feel I am growing on many levels."

Dina Aladawy, Year of 2016/17, Informatics, Artificial Intelligence

"As a member of TUM: Junge Akademie, I really appreciate both the subject-specific work and the personal exchange. These two components lead to a very productive work climate, whereby there is room for fun as well."

Philipp Rinner, Year of 2015/16, TUM School of Management, Foodtomorrow

"TUM: Junge Akademie enriches my personal and professional development. I get to know extraordinary people with whom it is a pleasure to work with productively as well as participate in joint extracurricular activity."

Anna Schmidt, Year of 2014/15, Faculty of Civil, Geo and Environmental Engineering, zusammen.sammeln

About us

TUM: Junge Akademie is TUM’s scholarship program for exceptionally talented and dedicated students of all faculties. Within the scope of an active network TUM: Junge Akademie provides the necessary space and support for its members to grow and thereby prepares them to take on a responsible position in modern society.

We challenge our members to start and engage in ambitious and socially relevant projects and initiatives.

We empower our members’ personal development by offering workshops, interdisciplinary exchange and cultural activities.

We connect our members with a boundary-spanning network of TUM’s faculty, excellent practitioners and talented students.

We encourage creative freedom, unconventional ideas, analytical thinking and the consideration of scientific insights.

We train our members to act as open minded, responsible and reflective individuals...

...who provide constructive impulses to society by applying their full intellectual potential.

“Being part of TUM: Junge Akademie lets me contribute not only to my personality but also to the society. Most importantly, I enjoy being part of a wonderful family away from home, with events and kind people from various backgrounds.”

Meriç Firat, Year of 2013/14, Electrical and Computer Engineering, VisiTUM

Progress

What you get

- Grow by working in a scientific, socially relevant and interdisciplinary project
- Act as a member in an interdisciplinary network of dedicated students, researchers and professors
- Benefit from a variety of trainings, workshops and cultural events
- Benefit from advice and criticism given by experts in their fields
- Realize your ambitious ideas in an environment that opens doors and provides you with a network of opportunities
- Have fun and be inspired working together with ambitious people

What you give

- Commit to the project of your choice
- Contribute to the program by working in a taskforce, as a tutor, or in a senior project
- Participate regularly in workshops and events
- Schedule sufficient time to commit to your project (on average five to six hours a week)
- Challenge yourself, both personally and professionally

Active Membership

The 28-month scholarship program begins with 16 months of active work in a project of your choice. Afterwards you will support the next generation of members by sharing your experiences, skills and insights within the scope of either a tutorship or as a contributor in senior projects and task forces.

Throughout the entire course of your membership and later on as alumna or alumnus you will benefit from various workshops, courses and events. You will furthermore be a member of a vibrant network of the bright minds of TUM with strong links both within academia and industry.
